

Signature Collection

HAKWOOD

Warmth. Richness. Diversity.
Strength. These are just a few of
the qualities natural wood offers.
At Hakwood, we know the rest is
up to us.

A global leader in the design and
production of premium wood
flooring, we're committed to sourcing
the best raw materials and giving
them the love and care they deserve.
The result? Unparalleled hardwood
flooring that elevates every interior.

HAKWOOD

We are Hakwood

Our story begins more than 40 years ago in the Netherlands. It revolves around an enterprising family, of which each generation brings their skills and commitment to the business.

The major storylines involve Dutch forward-thinking design, technical expertise and long-term relationships. The result, which we continue to support each day, is premium and environmentally responsible hardwood products.

Elevating Interiors

We work closely with architects, interior designers, developers, contractors, and high-end builders to create customized wood solutions and help elevate any interior.

Our in-house R&D team, along with the best craftspeople in the industry, are proud to deliver made-to-order and custom wood flooring solutions for the most discerning clients around the globe.

Our flooring adorns many of the most prestigious and inspiring interiors. You can walk on a Hakwood floor in over seventy countries worldwide.

Craftsmanship

“From our R&D Lab in the Netherlands to homes, shops, offices, and resorts around the world, we’re elevating interiors and bringing ambitious, luxurious design plans to life.”

WE ARE ARTISTS

We pride ourselves on offering creative solutions for your design challenges. From colors and finishes to design elements and installation patterns, we’ll create custom products and materials to bring your vision to life.

After all, just because it’s practical doesn’t mean it shouldn’t turn heads.

WE ARE METICULOUS

Made exclusively in the Netherlands with sophisticated production processes, Hakwood has become synonymous with craftsmanship and excellence. Since 1979, we’ve been leading the industry in luxury engineered-hardwood flooring.

Our obsession with quality starts at the source. We’re ruthless in materials selection, allowing only the absolute best European hardwoods through our workroom doors. From there, our skilled craftspeople carefully and strategically bring out the very best qualities of each plank.

With over 17 quality checks throughout production, we’re deeply committed to providing the absolute best quality hardwood flooring, every single time.

WE ARE AMBITIOUS

Our team members take pride in our products and processes. Eager to share them, we’re thoughtfully expanding our reach and growing our global network, building our reputation as the preferred supplier of luxury hardwood flooring for architects, interior designers, developers, contractors, and high-end builders worldwide.

WE ARE COMMITTED

For more than 40 years, our team members have been committed to a single purpose and passion: producing and delivering the best hardwood flooring in the world.

Available in more than 60 unique colors, finishes, and textures, our collections offer something for every style and design, all with the same exceptional craftsmanship you expect from Hakwood.

RETAIL

From luxury homes and retail spaces to restaurants, offices, resorts, and yachts, our European hardwoods have the beauty and durability to make any environment shine. Our design team is here to create custom solutions that work with your space, wherever it may be.

Wood Species

EUROPEAN OAK

European Oak is exceptionally strong and undeniably beautiful. Oak's grain brings soul and timeless elegance to your spaces. No matter which finish or color you choose, every plank is designed and crafted to last a lifetime.

EUROPEAN ASH

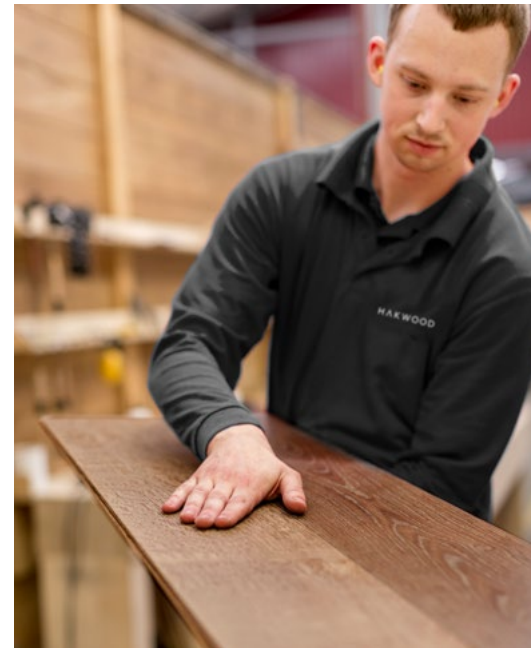

Our European Ash hardwood flooring delivers unparalleled durability with a rich, playful grain. Fast growing and strong, ash flooring is also a sustainable choice, for beautiful flooring you can feel good about.

All the time necessary

Before the wood enters our production process, we let it rest. Up to six months we let it dry naturally in the fresh air of the Netherlands. When the tolerance of the moisture content is within the tight range we require, the wood enters our meticulously optimized program in the kiln. We take great care to make sure the wood releases its moisture without tension. Because wood that starts at rest, prefers to stay at rest.

European Oak

Known for its unparalleled durability, our European oak flooring is available in 5 gorgeous grades. From knotted to sleek, knot-free planks — and everything in between — you can choose the grade that's right for your design, knowing you get the same Hakwood quality with every grade you choose.

European Oak

Grades

PRIME

A smooth, uninterrupted grain with no visible knots, our Prime European oak flooring is a great choice for minimalists and modern spaces.

PREMIER 1 - BIS

Minimal sound knots bring a touch of the signature oak texture you know and love while maintaining a long, subtle grain that fits in any space.

SELECT

A long sweeping grain dappled with small, sporadic knots gives our Select planks a subtle texture that works with any design style.

NATURAL

Small knots throughout bring character and depth to your floors. Warm and cozy, our Natural oak grade flooring speaks of time-honored interiors and effortless style.

CLASSICAL

The characteristic knots give our Classical oak flooring soul and rustic charm that's second to none. Rich and warm, this style brings the best of nature's handiwork to your interiors.

Color Collection

From light and airy to deep and dark, the Color Collection offers dozens of hardwood colors to choose from — all with a sleek, smooth surface.

Bespoke Services

HANDS-ON, PERSONAL APPROACH

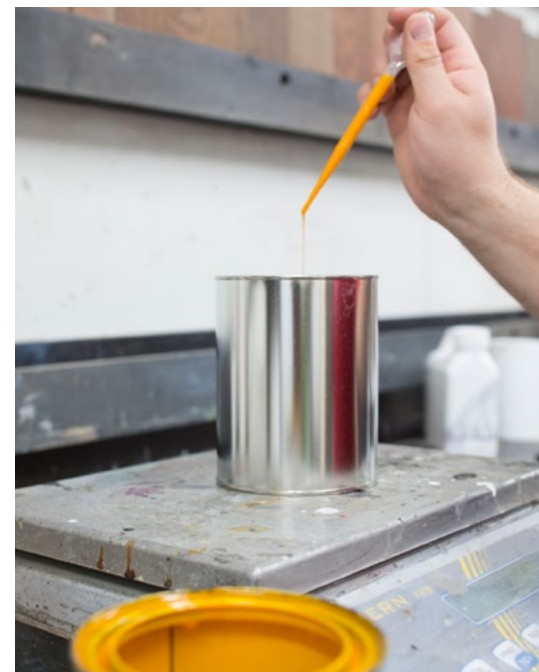

At Hakwood, we love creating custom solutions just for you. Our team offers full bespoke services tailored to meet the vision of your individual needs and goals. Whether that's a custom stain, finish, or plank style, we're here to brainstorm ideas alongside you and bring your design ideas to life.

GET IT JUST RIGHT

With a collection of over 2000 bespoke colors, we've only begun to explore the unlimited options available combining the natural beauty of wood with our design & manufacturing experience. Start your own creative journey with us at our development lab. Our team will get to know your vision and goals, then tirelessly explore every avenue to get your design just right.

Hakwood's library of thousands of custom colors, developed for unique projects around the globe.

Meticulous and calculated, our research and development team has mastered the art and science of customization. Discover what's possible with our team of experts at Hakwood.

DuoPlank®

Our signature DuoPlank® is designed to reduce movement in your flooring, no matter the season. The result? Beautiful hardwood flooring that's quiet and stable.

DuoPlank® is offered in 2 thicknesses, multiple widths, and various installation patterns to meet the needs of every project. Choose one or mix and match to achieve your desired result.

European Oak or Ash top layer
in your color of choice.

Birch sub layer, expertly engineered
to create the most durable,
heirloom-quality wood flooring.

15mm (5/8")
+/- 4mm (5/32") unfinished solid wood top layer
+/- 11mm (15/32") water resistant plywood

20mm (3/4")
+/- 6mm (1/4") unfinished solid wood top layer
+/- 14mm (1/2") water resistant plywood

Bevel Options

Three edge options for even more design customization.

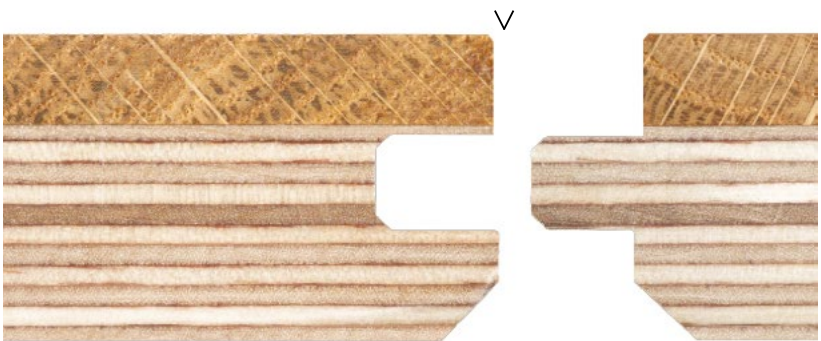

Micro Bevel planks feature a distinct V shape between each board, bringing added texture to your flooring.

Our Nano Bevel is a less pronounced V shape for less definition between planks.

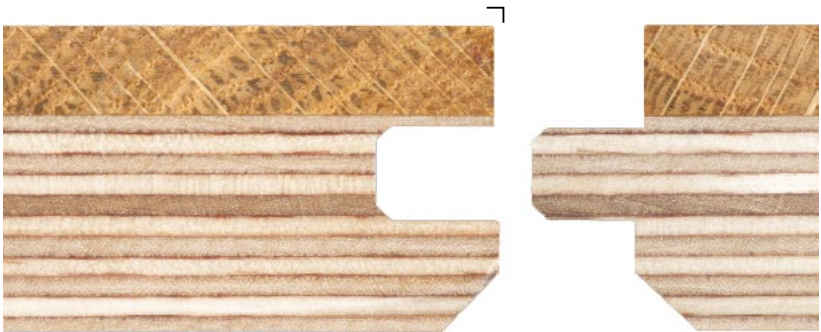

We also offer Square Edge planks for a seamless, streamlined look.

MICRO EDGE

NANO EDGE

SQUARE EDGE

Patterns

Signature Hakwood quality in three unique installation patterns.

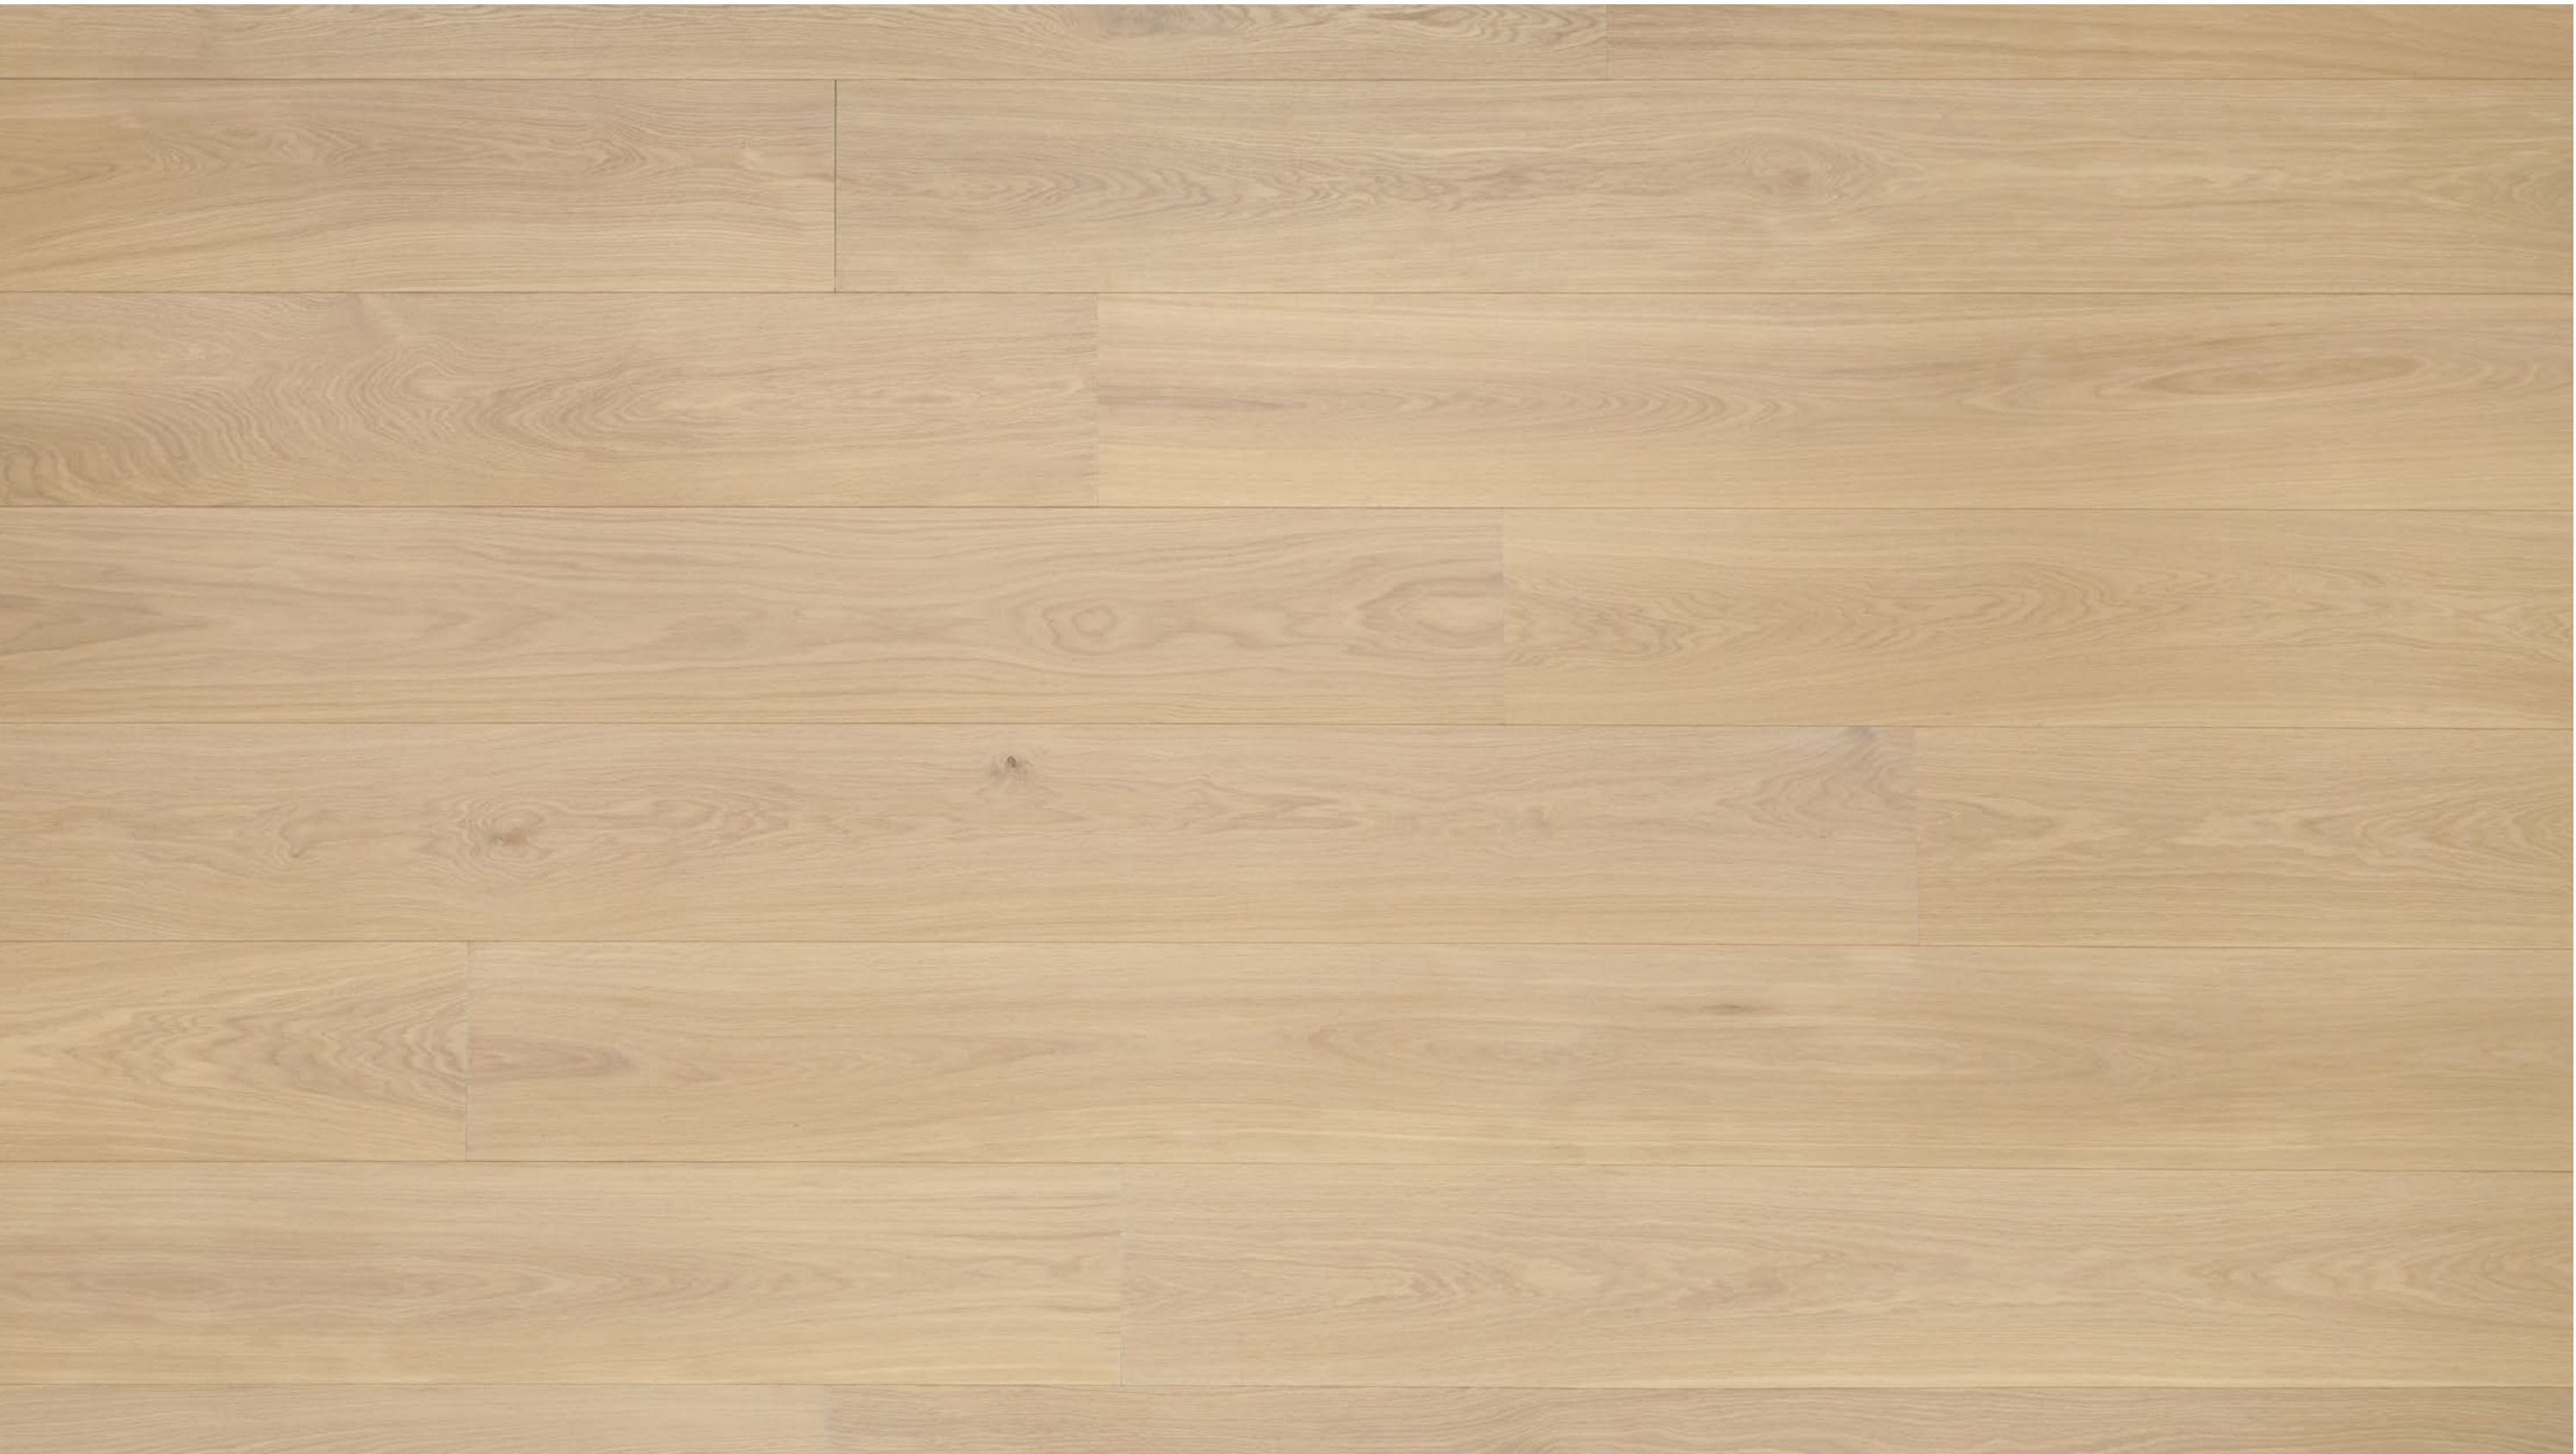

For timeless sophistication, we offer classic planks in a variety of sizes. Want a bit of wow-factor?

Our Herringbone and Chevron collections bring the elegance to your floors. Both patterns' subtle movements visually expand even the smallest spaces.

No matter which pattern you choose, Hakwood offers multiple lengths, thicknesses, and colors to create your perfect hardwood design for every space.

Parquet Tiles

Unparalleled elegance for the most discerning clients. Turn heads and start conversations with the Hakwood Parquet Tiles.

Choose from 6 luxury tile designs, or partner with our craftspeople to create your own. From color, style, and dimensions, every element is customizable, allowing you to create a showstopping hardwood floor.

Tailor Makes

Go beyond flooring with tailor-made products from our experts. From staircases and profiles to integrated vent covers, our expert craftspeople custom-create each finishing touch to seamlessly blend into your environment.

Quality Tested & Certified

MEETING INTERNATIONAL STANDARDS

Hakwood products proudly meet the strict demands of international compliance standards. Our DuoPlank® flooring has earned certificates from around the globe, substantiating our unwavering commitment to exceptional quality hardwood flooring. Please inquire for further details and certificates at info@hakwood.com.

GREEN AND SUSTAINABLE

The beauty of our flooring begins with the unique and natural essence of wood. We craft our products with the utmost respect for this naturally green and renewable resource. Most importantly, we make sure our products are built to withstand the test of time. Hakwood flooring is available FSC® certified upon request.

We test our products for performance to make sure they meet global standards for healthy interiors. For projects seeking BREEAM & LEED certification, please contact us for your specific requirements.

INDOOR AIR QUALITY

Our DuoPlank® flooring is certified for multiple healthy interior climate labels, so you know your interiors are as healthy as they are beautiful.

SCRATCH RESISTANCE

Selected scratch resistant flooring finishes significantly reduce the risk of abrasion and are particularly suitable for restaurants, retail, and busy homes.

STATIC LOAD

Unparalleled strength and break resistance. Our DuoPlank® features an under-layer of high quality Baltic birch, fused with our signature adhesion technique. Together, they create a product strong enough to be used as bridging planks in many building categories.

SLIP RESISTANCE

Unique surface treatments improve slip resistance, making Hakwood planks particularly suitable for restaurants, commercial spaces, and retail shops.

REACTION TO FIRE

Fire resistance is crucial for building safety requirements. Hakwood's DuoPlank® is categorized as Cfl-s1 for Europe and is suitable for commercial and residential projects.

HEATING & COOLING

The stability of the DuoPlank® makes our products particularly compatible with underfloor heating and cooling. Heat conduction is suitable for use as main or supplementary heating.

Maintenance Products

A properly maintained wood floor can retain its beauty for decades. That's why we've created a suite of clean, simple products for your floor's unique surface and finish. With Hakwood Complete, you have everything you need to make routine cleaning and maintenance a breeze and enjoy pristine hardwood flooring for years to come.

CLEAN

Life happens. Your hardwoods from Hakwood can take it. Our neutral cleanser is designed for frequent use and formulated with minimal ingredients to keep your floors and your indoor air clean and fresh. Pair with oil care to maintain the protective top layer and preserve the color underneath.

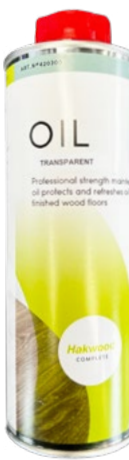

FINISH CARE

Our Finish Care is specifically designed to protect your flooring from moisture, dirt, and debris. Apply as needed to restore the beauty and extend the life of your hardwood floors.

OIL CARE

After cleaning, Hakwood Oil Care provides routine maintenance and feeds the protection layer of oil-finished hardwood floors. A simple water-based oil and wax emulsion, our custom formula is the simple, safe way to keep your hardwood floors looking their best and protected.

OIL

Even with frequent care, hardwood floors can become dry and worn over time - especially in high-traffic areas. Hakwood oil rejuvenates the color of faded floors, seals your planks with a new top coat, and prevents dirt buildup to make routine cleaning easier.
