

HYDRO SYSTEMS

TRANSFORMING THE BATH THROUGH
THE POWER OF WATER SINCE 1978

“Pure water is the world’s first and foremost medicine.” — Slovak Proverb

Water is Our Inspiration

Water has always been the starting point for healing, ritual, and restoration.

At Hydro Systems, it's also the foundation of our craft.

We believe every wellness bath should begin with the elemental power of water.

Wellness is Rising in the Home

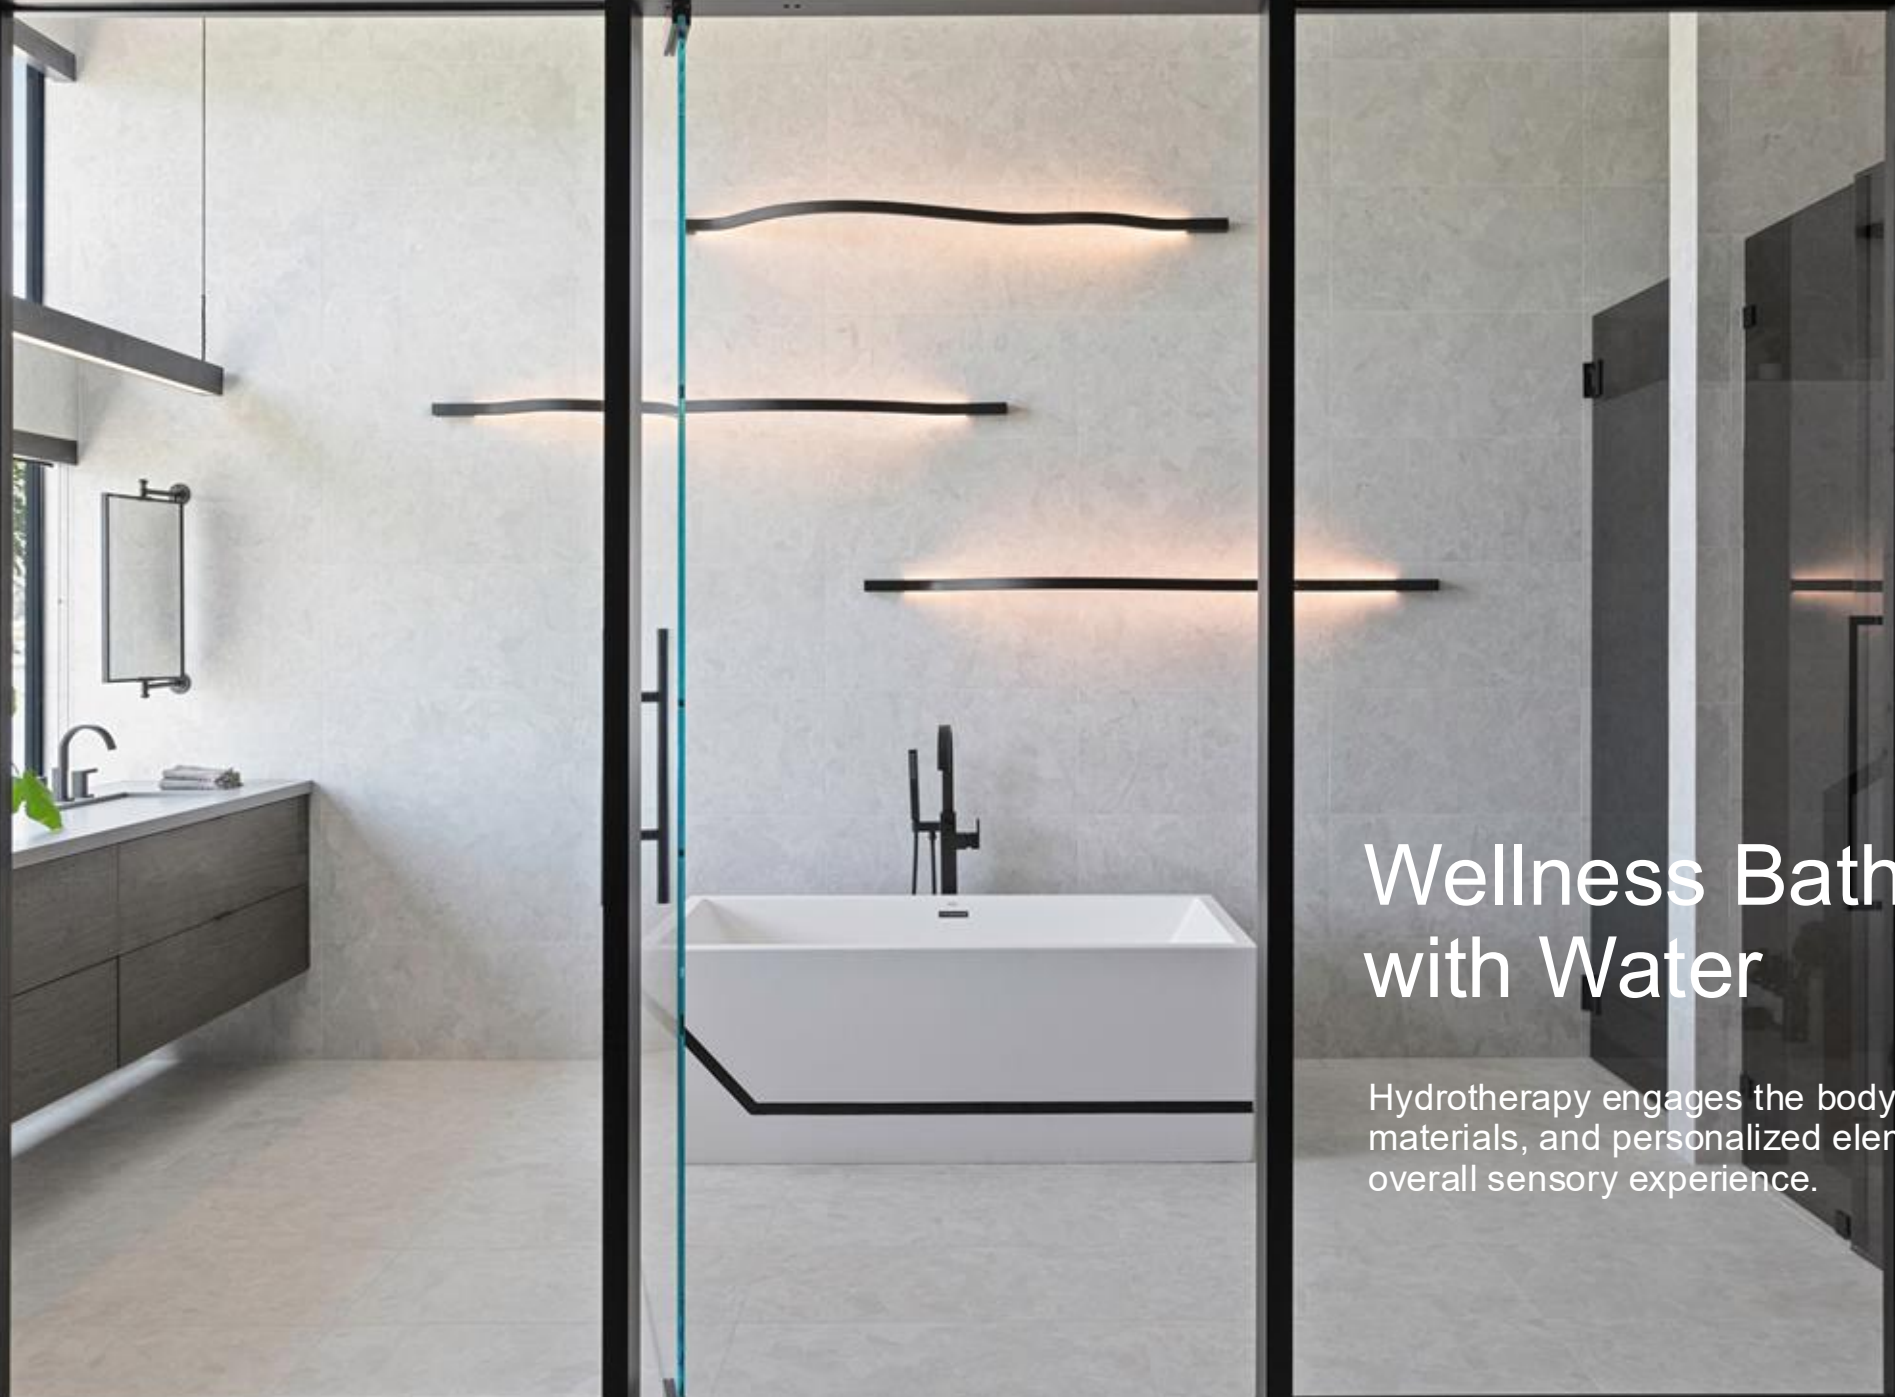

- Wellness is a daily priority
- Preventive health is a key motivator
- Beyond fitness: wellness is a holistic approach that integrates mind, body, and spirit

Homeowners are Prioritizing Wellness Features in the Bathroom

- Increased daily stress, a desire for personal retreats, and a cultural shift that views health as a lifestyle is driving demand for bath spaces that deliver a private and consistent spa experience.
- 36 % of renovated bathrooms now include wellness upgrades — Houzz 2025
- Spa-inspired bathrooms, saunas, cold plunges, and wellness amenities are growing priorities in real estate listings, rising year over year — Zillow

Wellness Bath Begins with Water

Hydrotherapy engages the body first. Light, air, materials, and personalized elements shape the overall sensory experience.

- Cold Plunge
- Indulge
- Whirlpool
- Thermal Air
- Fusion
- Chromatherapy

Our Hydrotherapy Portfolio

For over 45 years, Hydro Systems has led the industry in hydrotherapy innovation. Our comprehensive portfolio delivers immersive experiences that support health, calm, and physical renewal.

Cold Plunge for Total Mind-Body Balance

Immersing in water cooled to 59 F (15 C) or below for just three minutes offers the ultimate mind-body reset

Benefits

- Reduced pain and inflammation
- Faster post-workout muscle and joint recovery
- Elevated Mood
- Improved Sleep Quality
- Strengthening of the immune system
- Enhanced mindfulness
- Provides gentle relief for dry, sensitive skin
- Soothes irritation in eczema- and psoriasis-prone skin
- Improved blood circulation
- Immune support

Hydro Systems' Cold Plunge System
2024 Product Award Winner

Natural Hydration for Healthier Skin

Oxygen-rich microbubbles
purify the skin.

Benefits

- Boosts collagen, improves elasticity, and leaves skin looking refreshed
- Helps soothe irritation and dryness, gentle enough for eczema- and psoriasis-prone skin
- Naturally exfoliates and rehydrates skin using only water - no additives
- Promotes relaxation, supports serotonin release, and encourages more restorative sleep

Whirlpool Massage for Muscle Relief

Customizable water-jet massage for relief, circulation, and recovery.

Benefits

- Soothes sore muscles, eases joint discomfort (including arthritis), and relieves daily tension
- Stimulates circulation to support blood flow and oxygen delivery throughout the body
- Helps lower stress and supports serotonin release for a calmer mood and mental reset
- Relaxes the body and nervous system, encouraging deeper, more restorative sleep
- Supports recovery by helping reduce inflammation, improve mobility, and ease stiffness

Targeted Hydrotherapy for Back & Neck Relief

Ease muscle tension and promote full-body relaxation with precision water therapy

Benefits

- Delivers targeted hydro-massage to the neck, shoulders, and back
- Promotes full-body relaxation by reducing stress, soothing migraines, and supporting healthy circulation

Effervescent Massage with Thermal Air

A gentle, Swedish-style massage powered by millions of warm air bubbles.

Benefits

- Helps relieve muscle tension, stiffness, and soreness without strong jet pressure.
- Stimulates circulation and supports healthy blood flow and oxygen delivery
- Encourages relaxation, helps reduce stress, and supports improved mood
- Promotes deeper, more restorative sleep and overall physical and mental well-being

Pure Water, Pure Wellness with Hydrozone

An advanced purification system that ensures every bath is hygienic, pure, and restorative.

Benefits

- Ozone is a **NATURAL** compound that reverts to oxygen when its work is done, leaving no by-products in the water.
- Ozone is **SAFE** and **EFFECTIVE**, made naturally from oxygen. 200 times stronger than bleach

Elements of the Wellness Bath | Hydro Fusion

Stay Warmer, Longer with Hydro Fusion

Maintains a consistent water temperature without refilling or running the tap.

Benefits

- Promotes quiet, uninterrupted relaxation
- Supports circulation and muscle comfort through sustained warmth
- Helps the nervous system reset after a long day
- Prepares the body for more restorative sleep

The Healing Power of Light and Color

Colors activate neurochemical pathways that support balance, clarity, and energy.

Benefits

Red Energizes the body and supports circulation by stimulating the root chakra, associated with vitality and grounding.

Orange Encourages creativity and emotional balance while supporting the sacral chakra, digestion, and muscle relaxation.

Green Promotes balance and restoration by stimulating the heart chakra, supporting immune function and a sense of harmony.

Blue Delivers a cooling, calming effect that helps soothe stress, tension, and inflammation while encouraging relaxation.

Indigo Supports mental clarity and intuition by activating the brow chakra, associated with perception and mindfulness.

Purple Encourages deep relaxation and meditation, helping calm the nervous system and support restful sleep.

Bespoke Design for Personalized Wellness

- A bath personalized for the individual:
- **SUPPORTS** the body more comfortably
- **IMPROVES** effectiveness of hydrotherapy
- **STRENGTHENS** emotional connection to the space
- **ENCOURAGES** more consistent use
- **DECREASES** stress and **INCREASES** daily enjoyment of space
- Endless customization options with Hydro Systems:
 - Size
 - Shape
 - Materials
 - Colors
 - Hydrotherapy

Wellness, Personalized by Color

A palette of 15 curated color options plus custom color matching help support mood, calm, and emotional well-being.

HYDRO SYSTEMS

Outdoor Collection

Experience the transformative power of contrast therapy

Outdoor Contrast Therapy for Faster Recovery

As nature intended: alternating hot and cold immersion aids circulation and recovery.

Benefits

- Stimulates circulation
- Heat helps relax muscles
- Cold helps reduce inflammation
- Improved sleep quality
- Reduced pain and inflammation
- Faster post-workout muscle and joint recovery

How our products deliver wellness starts with how they're crafted.

Family-run business for over 45 years

Crafted by people who care deeply about the wellness experience, not mass production

Focused on personalized solutions and innovation, not one-size-fits-all approaches

Award Winning Innovation

Consistently celebrated by the design community

Proof of our commitment to pushing the boundaries of bath and wellness

Made in the U.S.A.

- Every Hydro Systems product is made in the U.S.A.
- Crafted with premium materials sourced in the U.S.
- Built by skilled artisans and engineers
- Bi-coastal manufacturing facilities in Valencia, California and McDonough, Georgia
- Short and consistent lead times
